Populations into Serfs, by Those Who Dare
Plan the Future to Ensure and Bring
Continued Dominance and Survival of Their Own Offspring,
Through Science They'll Create the Perfect Breed
Of Engineered Slaves Serving their Every Need,
While in the Process the Old Man Must Die,
New Slave is Efficient, No Dreams, Can't Cry,

Hi folks. I am Alan Watt and this is Cutting Through The Matrix on October 30th 2009. Newcomers look into cuttingthroughthematrix.com web site. You'll find hundreds of hours of talks I've given in the past where I try to fill in the little gaps they leave out of the history books that they give to the school children. I show you how the world is planned. The future is always planned by those who have been in control of the past. George Orwell summed it up very well in his book **1984**. That's how it's always been. So I try to, from their own official memoirs - bureaucrats especially, high bureaucrats are very fond of putting out their memoirs. I show you that things that are talked about and discussed at the big meetings, maybe 50 to 100 years ago, and how they outlined their agenda for the world, are all coming to pass. Even the stuff that they've released 20 years ago for the next 50 years or 100 years are all set up and in motion; the machinery is there. So I give you the clues to it and it's up to you to do the rest of the research yourself. You can't do it for everyone else. It's not necessary to go that far to try and get enough information to at least inform others around you. You always start with things they do understand, what they can comprehend, what's happening in their lives, what's changing their lives, and start from there. You can't overwhelm them with history and data. Once you've conditioned them into the REALITY of what's happening now, then you can start on them, if they have the ability to comprehend that.

You'll see all the other sites I've got on the cuttingthroughthematrix.com web site, bookmark them for future use. That way, you can always download if I get pulled off the big sites again. That happens once in a while. Therefore, you can always download the latest shows from the alternate sites. You might find it easier because when everyone goes into the .com site at the same time, it tends to kind of be a bit slow. So you can choose from these other sites there. There's a whole bunch to choose from [listed above]. The last one I generally mention is alanwattsentientsentinel.eu, the European site. It has all the same audios as the rest and it has the addition of transcripts for download and print up of quite a few of the talks I've given, written in the various

languages of Europe.

You bring me to you, you the listeners. I'm not backed by anybody. I'm not making a career out of this, believe you me. It's a *necessity* to come out now and share the knowledge that I've gleaned over my lifetime... before it's lost basically. You have to PASS knowledge on to each generation so at least some people will have a start in life. Most people don't get a start until they wake up much later on. Even then there are very few and then too, they fall into so many traps. There are those who control the traps out there and have you spinning off in different directions to keep you from getting the truth.

So you can keep me going buy buying the books and so on that I have for sale on the web sites, the disks and so on. There are also disks with 50 shows on them at a time, well worth it. You can also donate to me as well. The donate button is on each and every site through PayPal. [Payment options listed at top and bottom of transcript.] Some people just send cash. It's up to you to keep me going. The expenses are heavy here, heavy. I think the electricity went up about 3 times already this year and I've just got an announcement, it's going up again as they put in the Smart meters. Behind all the propaganda, it's not just to teach you to use less electricity and the cost increase of course that goes along with it, it's so they can monitor every part of the equipment in your house and how much you're using it. That's the real reason for it all. They've been doing this in other countries before Canada. See, we're global, folks... and they just haven't announced the new masters yet. They'll come out eventually... once no one cares. Back with more after this break.

Hi folks. I am Alan Watt and we're Cutting Through The Matrix. Cutting through this fake reality that's been indoctrinated into us all and cutting through the upgrades or the downloads, you might call them, that we get everyday from the main stream, authorized media... that are simply prostitutes for those who rule. It's always been that way with media. It's just that the generation now have been trained to think that somehow it's an appendage to your brain; it's there to reason for you. That's what Brzezinski said in his own book, **Between Two Ages**. They KNOW this. They know this.

They've had such an awful name in past generations. PEOPLE USED TO KNOW THAT THE MEDIA'S JOB WAS PROPAGANDA ON BEHALF OF THOSE WHO RULE, the big politicians and magnates of power. They knew that but with about 30 years of giving us this amazing indoctrination, until you really truly think that it's there as some sort of official educational thing, that is so altruistically beautiful, that it's part of you. It's nothing of the kind. It's owned by private organizations.

In the British Commonwealth countries, we have our BBC versions. Canada's got the CBC. It's a spin off of the BBC, the official one. It's funded by the tax payer. It's to give us propaganda on behalf of the agendas, you see. NOT to enlighten you into knowing all the truth. We're never told all the truth on any particular topic. We're told spins on something to give us an opinion. WE'RE ALL DOWNLOADED WITH THE SAME OPINIONS AT THE SAME TIME. Standardization of opinion, you see. It's a pity people forget that when they read media that there's agendas at work. Always. There have always been agendas at work. You have to go into the history of the newspapers to find out how they were run in the past. They are run exactly the same way today. They've got better PR that's all.

With everything else too, say the vaccinations for the so-called, *so-called* Swine flu. These scary scenarios we're getting... exactly what the World Health Organization said; they'd give us SCARY scenarios. You know... *catastrophic doomsday scenarios* TO TERRIFY US INTO COMPLIANCE WITH WHATEVER IT IS. We still think it's for the flu, but there'd be other reasons for this jab. Just like there have always been other reasons for the PREVIOUS jabs we all got. From the beginning, part of the problem with the World Health Organization was to reduce the population and they've been very successful at that - starting with the Western countries - until they admit, every year - and they give you the statistics every year - of THE SPERM COUNT JUST PLUMMETING IN THE WESTERN MALE AND INFERTILITY JUST SKYROCKETING. They never mention the word crisis beside it, which means it's obviously planned. Otherwise, it would BE a crisis. But it's not. It's the agenda. Therefore, there are other reasons for injections, inoculations... always.

We can't forget that Baxter Laboratories, on behalf of the World Health Organization, supposedly screwed up. Now, you don't get these top clearance laboratories full with I think 2, 3, 4, and 5 clearances that triple and quadruple check every single part or stage of working with viruses and all, they just happened to mix 2 viruses together. The common, so-called common flu being annual, what they suspect will be the annual flues this season and the bird flu and sent them off to be distributed across Europe. If that happened, it would have supposedly caused a pandemic.

Then we had the Canadian independent inquiry before they started the shots because they'd found... and I know where they found it from. It was from years ago from the World Health Organization. That if they gave the common flu first, they could also set up the patient to receive a more dangerous, viral flu type... by the introduction of the first flu shots that they got. So there's a hesitation initially here about giving out the flu [shot]. Then of course, they went back to their propaganda and pretended that they'd never mentioned it so they can get the thing going and people are coming down sick.

It's amazing though, I've read articles here about people just come down with it. The 'unfortunates,' as they say at the top. They know at the top roughly how much of the population will come down with 'dystonic'

problems, as they call it. What they're telling you really, and covering up, is the fact you come down with an INSTANT CASE OF TERMINAL PHASE MULTIPLE SCLEROSIS. That's what you come down with. That's what you're coming down with folks... paralysis. You can hardly speak and you can't walk. That's what they give you... an INSTANT, ADVANCED case, a *weaponized* multiple sclerosis. Yes, the symptoms are 'dystonic.' That's a description, not an actual diagnosis.

Here's an article from Ireland that is from the Irish Independent.

Top insurer tells 1,000 GPs not to give swine flu vaccine

Wednesday October 14 2009 / Irish Independent / - Eilish O'Regan, Health Correspondent

An insurance company has warned 1,000 GPs not to administer the swine flu vaccine.

The HSE (*Alan: This is their national health service, the socialized system that they have all over the place that the US is bringing into force.*) plans to enlist family doctors to give the swine flu vaccine to patients with pre-existing medical conditions.

But an insurance company which covers around 1,000 of the 2,200 to 2,500 GPs in the country advised them not to sign up for the work because of legal indemnity issues.

The HSE has given GPs until today to sign up to give the vaccine to 400,000 of their patients with certain medical conditions from next week.

A later article from another paper said they're trying to pass it on to nurses to give it so they'll get the heat and not the GPs. And they want to give this stuff to people with *pre-existing* medical conditions. I'll tell you why. Under the eugenics scheme, they want to wipe out those who have any possibility of passing on certain, what they call weaknesses - medical weaknesses - on to their offspring. If you wipe them out and get rid of them, that's the end of their gene line isn't it. That's the reason for it folks. There's many reasons for the shot, many, many reasons and you'll never understand them until you make that final leap and cross the big river, at a single jump, and *SUSPEND YOUR INCREDULITY* AND TOSS IT OUT THE WINDOW AND COME INTO REALITY THAT THEY'RE ACTUALLY NOT JUST STARTING, THEY'VE BEEN DOING THIS FOR A LONG TIME, A LONG TIME. People haven't a clue. People just haven't a clue what really is going on, ever... ever in their lives.

There is so much information out there about what's really happening and it's not getting out to the public at all. Here's The Telegraph. It's run all over the country. You have to go into Sweden to find out how many Americans have died with the jab already because they're not reporting it in the US. You're just statistics and numbers, 'unfortunates' as they say. You're the unfortunates. High bureaucrats don't have us... you're not Joan Smith or whoever. You're a number and that's how you go down. *You're not real to them at the top.* They always come out with 'it's for the greater good' and all that kind of stuff, all that rubbish. Even those guys are not at that level of understanding of what's really going on. There are BIG plans for this massive nonsense that you'll never figure out. We'll start dying off quicker regardless, over the next few years because THAT'S HOW THEY INTRODUCED THE MASSIVE CANCERS that have skyrocketed for the last 30, 40 years. They've got to reduce the population. Al Gore and all the boys say so. They're all telling you, 'we've got to bring the population down.' Yep, we're not dying fast enough. So what do they do? They're very practical at the top, they make it happen. And you don't tell the children you're killing them. We are the children... regardless of your age.

Boy rushed to hospital after swine flu jab

By Lisa Smyth / Tuesday, 27 October 2009 / Belfast Telegraph

The safety of Northern Ireland's swine flu vaccination programme was called into question today by the parent of a young special needs pupil who ended up in hospital just hours after getting the jab. (*A: Remember, if it happens a day or two days after, you're not included under the causes of the jab causing your death.*)

Anne Marie Fletcher said she feared her 15-year-old son Rhys was going to die as she rushed him to hospital less than 24 hours after receiving the swine flu vaccine. (*A: It doesn't say here in this report by the way... keep this in mind... they've been encouraging everyone to get the so-called common flu vaccine, annual shot BEFORE the Swine flu that SETS YOU UP for the Swine flu. Remember that? It's what Canada said. They're not telling you if this little boy got that beforehand either, before the Swine flu vaccine.*)

The teenager fell seriously ill after receiving the injection, along with thousands of other pupils across Northern Ireland last Friday. He was later diagnosed with swine flu. (*A: He got Swine flu from the jab.*)

"My husband drove us to Antrim (Area Hospital) and I sat in the back with Rhys," she told the Belfast Telegraph.

"By this stage he was going into spasms. He couldn't bend his fingers. I was absolutely terrified.

"He was rambling and becoming incoherent. I honestly thought he was going to die in the back of the car.

"He kept saying he wanted to sleep but I wouldn't dare let him close his eyes because I was frightened that if I did he would never wake up."

The Public Health Agency, the organisation tasked with managing Northern Ireland's response to the swine flu pandemic, has stated clearly that anyone suffering from flu-like symptoms should remain at home and contact their GP by telephone. (A: *So if this guy had stayed at home... he would have been dead. Why would they tell them to keep them at home? Hmm?*)

The experience of the Fletcher family from Carrickfergus calls into question whether Government protocols regarding the handling of swine flu are being followed. It is the latest episode to shake public confidence after the family of a Londonderry teenager who died with the virus was not informed she had it until after her funeral.

Some 2,500 children in over 20 special schools for severe learning disability across Northern Ireland were offered the vaccine last week after four pupils died with the virus this month. (A: *Who's dying off? Well, you know those gene pools they don't want. Back with more after this break.*)

Hi folks. I am Alan Watt and we're Cutting Through The Matrix. There are quite a few sites up right now discussing this particular World Health Organization memo from 1972. I'll put one up tonight and you can check it out for yourself and follow and actually go into the medical site they send you to, to download the PDF of an investigation into the ability of using vaccines which would bring down... IT WOULD KILL PEOPLE by the exact same methods that Canada was worried about recently. Getting the previous shots, the so-called common flu or annual flu shots, that they keep changing and you might end up being more prone and actually come down with the killer flu, with the second shot, the Swine flu shot. In 1972 they knew this stuff.

This is from a site that's called fightbackh1n1.com. I'll put that up tonight. It says...

WHO memos 1972 explains how to turn vaccines into a means of killing

fightbackh1n1.com

Two key memorandums from WHO, discovered by Patrick Jordan, prove WHO has intentionally created the three-shot killer vaccine that people in the USA and other countries could soon be forced to take. (A: *They've actually found that they could bring it down to 2. They can actually mix the Avian flu with the first one, in the common one, the so-called common flu virus. It names the memoranda's here.*)

1972 WHO Bulletin 47, No 2 Memoranda #1 and #2 Virus-associated immunopathology:

Animal models and implications for human disease * technically outline the ability to create biological weapons in the form of vaccines that:

1) First totally disable the Immune System.

2) Load every cell of the Victim's body up with Infection.

3) Switch the Immune System on causing the host to kill themselves (A: *In what you've heard recently - this is from 1972 by the way - but you've heard it only recently. The Canadians obviously came across the same thing as they were backtracking previous records.) in a Cytokine Storm. (A: *That's where all your white blood fighters come into play, storm into the lungs to fight this virus. Then you literally drown in them. You drown in them, there's so many that come in.*)*

One, Two, Three, Dead.

These WHO Memorandas describe the three-stage impact of the three "shots" many people will be forced to take this fall to allegedly treat a virus that WHO also helped create and release.

This is a crucial piece of evidence of WHO's long-term **genocidal intentions** (A: *You'd better believe, you'd better believe... most folk would never believe it. They're too brainwashed that 'people would never do that.' THAT'S HOW THEY GET AWAY WITH IT in the real world.*) that could stand in any court of law because these memorandums give the best and fullest explanation WHO's and affiliated labs (such as the CDC) current activities, such as their patenting of the most lethal bird flu viruses (A: *And they did. They patented them.*), their sending that virus to Baxter's subsidiary in Austria, which weaponised it and sent out 72 kilos to 16 labs in four countries almost triggering a global pandemic. (A: *That's true. I read it in mainstream papers maybe a month or two months ago.*)

For every crime, there needs to be motive, an indication that it was deliberate, planned. The WHO

memorandums provide the evidence of just that deliberate, long-term planning to kill people by weakening their immune system by use of the first vaccine, injecting a live virus into their body by a second (*A: But they can actually couple the two together in the first one.*), and creating a cytokine storm using squalene in a third. (*A: That's true. Squalene will actually weaponize. It's not just your own body going into a natural state of protecting you. It weaponizes your natural immune response and you can't turn it off. You'll drown in your lung tissue basically.*)

So it's official. You can actually read it yourself. They've known this all along. They know EXACTLY what they're doing.

Since 1972 they've know this. All the links are on here and you can look them up for yourself and come to your own conclusions. It's up to you. OR you can listen to the propaganda and go along with it. You'll be amongst the majority then. That's how most things work. *Propaganda wins over fact or reason...* as it's been proven in many, many, many previous generations.

This next article is about Sweden.

Swedish media reporting fake swine flu cases to scare population

Mise à jour le Vendredi, 30 Octobre 2009 / Johan Niklasson

Today Aftonbladet claims 80,000 people in Sweden are infected with the "swine flu" H1N1 virus. Last week the official "confirmed" number of new cases were below 350. (*A: You see, we're getting it in every country. These massively inflated cases... if they even exist at all.*) With dramatic graphs (*A: That's what they use. Dramatic graphs...*) and bold faced fonts, Aftonbladet is apparently trying to scare as many as possible into believing the H1N1 virus to be a severe risk to their health. (*A: I'll be back with more after this break and read the rest of this article.*)

Hi folks. I am Alan Watt and we're Cutting Through The Matrix, reading an article about how governments across the world, this is particularly Sweden, are massively inflating the figures to terrify the public so they'll rush in and get their shots and all the rest of it.

Today Aftonbladet claims 80,000 people in Sweden are infected with the "swine flu" H1N1 virus. Last week the official "confirmed" number of new cases were below 350. With dramatic graphs and bold faced fonts, Aftonbladet is apparently trying to scare as many as possible into believing the H1N1 virus to be a severe risk to their health. The same paper claims that the Pandemrix vaccine, which today was forbidden in Switzerland for use on pregnant women and adults below 18 and above 60 - that very same vaccine to be the only rescue. (*A: For the Swedish population. So it's banned in Switzerland but they're going to use it in Sweden. Amazing eh?*) "Hundreds of thousands might be sick by Christmas", warns the news paper.

In the same article it is claimed that so far 2.126 Swedes have been confirmed to have had the H1N1 virus. Johan Carlson, the chief at The Swedish Institute for Infectious Disease Control (SMI) claims that between 50.000 and 80.000 in reality are infected. (*A: They keep giving you these massive, inflated figures and they can't prove it because of all their graphs. They love crayons, you know, crayons and the little jerky movements and that's what they call a graph. As long as it goes up, they're happy.*)

The daily propaganda is unprecedented and when readers are given an opportunity to comment on the propaganda articles, many see their comments disappear within seconds. (*A: And that's how it's done.*)

The new strategy is to erase comments to the propaganda articles without sending the normal notification. In this way, those who comment in an article and have their comment removed will not know it is taken from the site.

Sweden and its very much controlled media is now showing its true face, implementing tactics worthy of the former Soviet Union and Communist East Germany. The Swedish Socialist system has been praised by many world leaders and is called "The Swedish Model". (A: *That's true. The avant-garde, you know.*) It is based on payment slavery and full control of all vital functions in society by a political control group. There is no real freedom in Sweden and the people have been so intensely indoctrinated from early years to the extent they think they want this system. (A: *It's true. They like authorities. You can train people to be happy slaves and give them little freebies and things and there will be a nanny state until that PHASE is over. It's only to get them under the spell, then they hit you with the big stick and tell you what to do and you obey because you're used to obeying. See. Trained, you've been trained to do it. It's startling; really it's true.*)

There's a web site there, I've read it before and it's called the Green Agenda. Excellent site and it has so many quotes on it that are on other sites as well but they really put it down concisely to do with terrifying the public and bringing down the population and global warming and all that rubbish. They give you references and quotes to do with this particular thing. I've read this one before from the Club of Rome. Remember, they were the premier environmental think tank and the consultants to the United Nations. The founders wrote a book called **The First Global Revolution** and said it was back in the 70s - they wrote this in their book - they were looking for a way to unite humanity under a new paradigm basically, a new cause to bring us all together but IT HAD TO BE UNDER A WARFARE SCENARIO. So they looked around at all the different possibilities. Under a warfare scenario, or a big threat and big danger, we all allow the governments to dominate us. We work hard for government and we do with less food, less this and less that, the rationing and all that stuff, and even ID cards. So they said this,

Quotes from "The Green Agenda" (green-agenda.com)

"The common enemy of humanity is man. In searching for a new enemy to unite us, we came up with the idea that pollution, the threat of global warming, water shortages, famine and the like would fit the bill. All these dangers are caused by human intervention, and it is only through changed attitudes and behavior that they can be overcome. The real enemy then, is humanity itself."

- Club of Rome, premier environmental think-tank, consultants to the United Nations

(A: *That's the premier environmental think-tank set up to find an agenda, find possible scientific, sci-fi solutions to it and they are the consultants to the United Nations.*)

~~~~~  
(A: *They have all these professors on the board of this international policy study group on climate change, the IPCC. Here's what one of them said, Professor Stephen Schneider.*)

"We need to get some broad based support, to capture the public's imagination... So we have to offer up scary scenarios, make simplified (A: *See, we're all very simple at the bottom.*), dramatic statements and make little mention of any doubts... Each of us has to decide what the right balance is between being effective and being honest."

- Prof. Stephen Schneider, Stanford Professor of Climatology, lead author of many IPCC reports (A: *for the United Nations.*)

~~~~~  
"We've got to ride this global warming issue. Even if the theory of global warming is wrong, we will be doing the right thing in terms of economic and environmental policy."

- Timothy Wirth, President of the UN Foundation

~~~~~  
"No matter if the science of global warming is all phony... climate change provides the greatest opportunity to bring about justice and equality in the world."

- Christine Stewart, former Canadian Minister of the Environment

(A: *These guys all get their salaries off this con game.*)

"The data doesn't matter. We're not basing our recommendations on the data. We're basing them on the climate models." (A: *You know, the specially made computer ones that give them the answers that they want.*)

- Prof. Chris Folland, Hadley Centre for Climate Prediction and Research

~~~~~  
"The models are convenient fictions that provide something very useful." [Alan laughing.]

- Dr David Frame, climate modeler, Oxford University

~~~~~  
(A: *Al Gore, the guy who was given the job of being the front man for all of this by his big pals at the top. He's quite the allegory isn't he?*)

"I believe it is appropriate to have an 'over-representation' of the facts (A: *Meaning a massive exaggeration.*) on how dangerous it is, as a predicate for opening up the audience."

(A: *So terrify them all with this coming catastrophe by over-representation because it's not a catastrophe at all. It's to bring us all under a new system of slavery, folks.*)

- Al Gore, Climate Change activist

~~~~~  
"It doesn't matter what is true, it only matters what people believe is true."

- Paul Watson, co-founder of Greenpeace

~~~~~  
"Unless we announce disasters no one will listen."

- Sir John Houghton, first chairman of IPCC

"The only way to get our society to truly change is to frighten people with the possibility of a catastrophe."  
- emeritus professor Daniel Botkin

(A: *What a con it is. The whole world is just a big stage of comedians.*)

"The climate crisis is not a political issue, it is a moral and spiritual challenge to all of humanity. (A: *So it's a spiritual challenge, you see.*) It is also our greatest opportunity to lift Global Consciousness to a higher level."

- Al Gore, Nobel Peace Prize acceptance speech

(A: *Guess who's guiding the whole way... this new religion of greening and so on, of depopulation and starvation for all... except them of course. They made a good job in Russia, the Soviet system, didn't they?*)

"We are on the verge of a global transformation. All we need is the right major crisis..."

- David Rockefeller, Club of Rome executive member

(A: *Boy, he's in all these top, top organizations isn't he? He funds all these organizations across the planet. His big PR crew - I think he hires ALL of Madison Avenue - come out with the T-shirts and distribute them all to school children all across the world, the same banners across the world so they'll all be on TV across the world at the same time demanding government do exactly what Mr. Rockefeller wants. [Alan laughing.]*)

"Humanity is sitting on a time bomb. If the vast majority of the world's scientists are right, we have just ten years to avert a major catastrophe that could send our entire planet's climate system into a tail-spin of epic destruction involving extreme weather, floods, droughts, epidemics and killer heat waves beyond anything we have ever experienced - a catastrophe of our own making."

- Al Gore, An Inconvenient Truth

(A: *Boy, oh boy.*)

"We are getting close to catastrophic tipping points, despite the fact that most people barely notice the warming yet." [Alan laughing.] (A: *That's because we're all cutting back on our heat because you're punishing us all for using energy.*)

- Dr James Hansen, NASA researcher

"By the end of this century climate change will reduce the human population to a few breeding pairs surviving near the Arctic."

- Sir James Lovelock, Revenge of Gaia

(A: *The Gaiaist, you see, mother earth.*)

"Climate Change will result in a catastrophic global sea level rise of seven meters. That's bye-bye most of Bangladesh, Netherlands, Florida and would make London the new Atlantis."

- Greenpeace International

(A: *What did they say, scary scenarios eh?*)

"This planet is on course for a catastrophe. The existence of Life itself is at stake."

- Dr Tim Flannery, Principal Research Scientist

(A: *What's going to get us first, the bird flu or the heat waves or whatever, eh?*)

"Coal makes us sick. Oil makes us sick. It's global warming. It's ruining our country. It's ruining our world."

- Harry Reid, U.S. Senate majority leader

"Climate Change is the greatest threat that human civilization has ever faced."

- Angela Merkel, German Chancellor

(A: *Boy, they have all their clowns in the right places at the right time don't they? They always do though don't they?*)

(A: *Barack Obama, the guy who's never even run a french-fry outlet or a fast food chain. Nothing, you know. Suddenly he's an expert.*)

"Climate change is real. Not only is it real, it's here, and its effects are giving rise to a frighteningly new global phenomenon: the man-made natural disaster."

**"The common enemy of humanity is man. In searching for a new enemy to unite us, we came up with the idea that pollution, the threat of global warming, water shortages, famine and the like would fit the bill. All these dangers are caused by human intervention, and it is only through changed attitudes and behavior that they can be overcome. The real enemy then, is humanity itself."**

~~~~~  
They've got all the propagandists in place called, so-called, world leaders. And you think you voted them in? You THINK you voted them in. We've got to be ALL on board. They even have institutions you know, foundations that's main job is to fund thousands of professional people to go around to other foundations, NGOs and all these politicians to build CONSENSUS; 'Are we all on board on this now?' 'Well, not quite sure...' as they slip cash under the table and they get surer and surer the heavier their hand becomes. THAT'S how it works. And their careers are guaranteed to go up the ladder, you see. We've never been run by the truth. Under this global system, they've got a lot of big plans for all of us. Not very nice.

They've got to get good excuses for bringing you into poverty, into a world of servitude. They're bringing down the food supply. They will bring it down, bit by bit. They're banning meat all together. They said it's going to be a vegetarian world. They're paying farmers to grow bio-fuels. Bio-fuels... even though they've said in their own **Agenda 21** that *ONLY authorized* vehicles in the future, *authorized, essential* vehicles will be on the road. WE won't be driving. It's all a big plan to stop and halt and bring down the food production and leave the big 5 agri-business boys in control of all food supplies in the world. Then they will ration it out to you. Yep. That way you can fight global warming and fight the ice age. You can fight who ever they bring along, and all the flues, you'll be fighting it all, and you're 'all in it together.' You'll get your rations every week but you **MUST** serve the world state. Each region, as they marked off the world in, is to be dispensed its food in a quota system. They'll bring down the quota every year and say, 'oh, we just can't feed the world.' 'So it's up to you, that region there, to bring down your population. How you do it is your problem, but we can't help, sorry.' I'm not kidding, I've read their books; I know where it's all going. I know where it's all going.

This is an article from The Telegraph. Now, I've talked about this too but it's still going on. I've talked about the sterility amongst males, massively. I've gone through the bisphenol A and all the other things that they put in your food, even baby food... melamine they put in baby food which **REALLY** brings down the sperm count. They put all the different stuff in the cosmetics for women. They know darned well what they're doing. Literally, if she's pregnant with a boy in the womb, between 8 and 12 weeks, he pretty well will turn into a rather puny male and be sterile. They have known this for oh... 60-odd years, they've been doing it. They found it out in the late 1890s in experiments. **THEY MADE SURE IT WAS GOING TO GO INTO THE FOOD** including putting it IN the baby food for *bulk*. You're eating plastic. And you think they're out to help you. So, The Telegraph...

Why boys are turning into girls

Gender-bending chemicals are largely exempt from new EU regulations, warns Geoffrey Lean.

23 Oct 2009 / The Telegraph

Girls will be girls and boys will be girls: everyday 'gender-bending' chemicals are feminising increasing numbers of babies. Here's something rather rotten from the State of Denmark. Its government yesterday unveiled official research showing that two-year-old children are at risk from a bewildering array of gender-bending chemicals in such everyday items as waterproof clothes, rubber boots, bed linen, food, nappies (A: *That's diapers.*), sunscreen lotion and moisturising cream. (A: *It's in shampoos and everything. That's why it's in there, in fact.*)

The 326-page report, published by the environment protection agency, is the latest piece in an increasingly alarming jigsaw. (A: *I've been talking about this for years and so have other people. It's only because of that, that this kind of article is even appearing in the paper, by the way. It's given with almost a humorous content.*) A picture is emerging of ubiquitous chemical contamination driving down sperm counts and feminising male children all over the developed world. And anti-pollution measures and regulations are falling far short of getting to grips with it. (A: *Back with more after this break.*)

Hi folks. I'm Alan Watt and we're Cutting Through The Matrix. Just before I take a caller that's long distance, I'll just mention that The Mail Online has announced that there's a snooper census, a big census for the UK and across other parts of Europe too. They've going to ask the name, sex and birth date of every person who's ever slept overnight in your house. There's freedom for you, eh. Can't you get where we're going?

The snooper's census: 2011 survey will ask for the name, sex and birth date of all our 'overnight visitors'

By James Chapman / 26th October 2009

The demand for the number of bedrooms in each home, coupled with a requirement to give the name, sex, date of birth and address of any overnight visitors, amounted to 'bedroom snooping', they said.

Now we'll go to the phone. There's Ari in Tel Aviv. Are you there Ari?

Ari: Hi. I just had a quick question. What are your thoughts on how Australia will go into the planned agenda?

Alan: Australia is to go right into this Far-Eastern bloc of countries. That was planned; even Karl Marx talked about it. The Royal Institute of International Affairs sent out and started a section for them, like the Council on Foreign Relations but a section called the Institute for Pacific Relations. They were working with China and all the Far-Eastern countries for the last 80 years on this very project of bringing in this bloc that they just now have announced... It's well underway. They have the machinery set up. Now it's just a matter of formalities going through and *propagandizing the public* into the necessity for security sake. 'No country can go it alone,' for pandemics and all this kind of stuff, or even for security. So they're getting lumped in with that, but China will be the boss over them and Japan. Their biggest problem, of course, is getting Australia, the citizenry, gradually worked up to the acceptance of this, and Japan as well, of course.

Ari: Where do you think we'll be the last place or maybe the safest place to be once things really get underway? I seems like it's a really scary situation right now with what seems to be about to happen in the United States. So, I'm just wondering if there were any other places that you thought might be a better place to kind of shelter it out.

Alan: You'd have to go to almost a third world country that doesn't have the machinery of military, police, officialdom, bureaucracy or money to implement the totally controlled society that all the other countries, the so-called first world countries, have. And countries that are not too interested with oil or anything like that, at the moment. That's what you'd have to look at. There are only a few places left to be honest with you and then you'd maybe have to rough it. You can't just run off to get a doctor or a hospital any time of the night or day. If you're willing to do that, you could probably live the rest of your life before they eventually catch up and doing the same there. Those will be the last countries where the money gets pumped in and the rapid deployment forces move in to bring in the same system.

Ari: Okay. This is kind of an unrelated topic. I saw a video of you on YouTube talking to a gentleman by the name of Cold Creek and I'm not sure if you're familiar with the video but he was a caller into your show and he was talking about the Masonic influence on culture creations and hip hop in particular. He mentioned KRS1, there was some discussion about that and I saw some imagery, some videos about him as well. But I also know that he works, or he's... I don't know how closely related he is but I know he's involved with Alex Jones who is supposedly fighting an information war against this planned agenda. Do you have any other thoughts about that?

Alan: No. He just called in a couple of times. I never looked up his information. I've spoken to lots more, rappers and different people in the industry. I know exactly how they're being managed. They're quite right with Masonic influence behind it all. Most of them are encouraged to join the O.T.O. Most musicians are and they have been since the 60s. Thanks for calling. I might look into that myself later.

From Hamish and myself in Ontario, Canada where it's pouring rain with the heavy, heavy spraying and then down comes the rain as always, it's good night and may your God or your Gods GO with you.
